

Stakeholder Analysis

Stakeholder	Interest / Role	Needs
Users / Clients	People seeking mental health support or therapy services	A safe, private, and easy-to-use platform where they can book individual therapy sessions, join group support sessions, and receive support without fear of stigma
Therapists	Mental health professionals who provide support sessions	Tools to manage appointments, view booked sessions, communicate securely with users, and organize their schedules
Admin	The person responsible for managing the platform	A dashboard to manage users, therapists, sessions, content, and monitor platform activity
Development Team	The team responsible for designing, building, and maintaining the system	Clear requirements, defined roles, project milestones, KPIs, and smooth integration between backend, frontend, database, and AI modules
AI System / AI Engineer	Responsible for the chatbot and recommendation system	Secure and organized data, anonymized AI logs, clear test scenarios, and continuous improvement of AI response quality and speed
DEPI Instructors / Digital Egypt Pioneers Initiative Evaluators	The instructors and evaluators responsible for assessing the project as part of the Digital Egypt Pioneers Initiative	A well-documented, organized, realistic, and functional project that clearly demonstrates problem understanding, system scope, user stories, use cases, KPIs, risk management, technical implementation, and teamwork
